

HTHP Drilling Activity Report

Quantifying Regional HTHP Activity And Listing The Challenges It Presents To Oilfield Equipment And Services

The HTHP Report is now available. This 28 page report quantifies the level of HTHP drilling activity in each region of the world and forecasts the near term growth. It includes a break down of the United States to highlight 4 specific areas of activity including the Gulf of Mexico, Gulf Coast, East Texas and Mid Continent regions. It shows 3 years of history and quantifies the difference between HT wells, HP wells and HTHP wells for each US region. The most active regional HTHP fields and Operators are also listed.

If you are active in equipment or services that have an application in HTHP or you're trying to understand the size of the HTHP market and expected growth, this report will help you. The report is divided into 3 sections. US activity, International activity and a section on the challenges HTHP has on oilfield materials and equipment.

The report is available for immediate delivery. It cost \$1,500 and can be emailed immediately via Adobe pdf format or shipped as a bound, printed color copy. To order, please use the form below or visit our web site at www.spearsresearch.com.
